GOVERN[illegible] OF MYSORE

To

The Chief Secretary to the
Government of Mysore
Bangalore

Sir,

I have the honor to report for the information and orders of Government that in many instances the hospital wards attached to local fund dispensaries are being occupied by paupers and sick strangers and if this is encouraged or allowed to continue, as it is likely unless some check be put upon it, the results will be that the allotments for dieting in-patients will be rapidly exhausted, and the wards will have to be closed for want of funds unless in the case of those who can afford to diet themselves and what is perhaps of more importance they will come to be looked upon as poor-house wards and the respectable inhabitants of the different districts for whose benefit they were primarily and mainly intended will not resort to them for that reason.

2 The paupers and wanderers whom

above referred to are neither cleanly nor healthy and as they are generally destitute and suffering from the results of inanition they are likely to require prolonged detention in hospital to the probable exclusion of respectable persons.

3. It is difficult in a humanitarian point of view to refuse food, shelter and medical aid where needed to sick and destitute strangers and wanderers, and I do not advocate this, but I contend that if these wards are used to any considerable extent by this class of persons they will be branded as poor house wards and will not be used by the respectable classes.

4. The same remarks apply to the larger hospitals of the state but not to an equal extent, as in these latter the numbers are large or comparatively large and in the multitude the objectionable characters of the few attract less attention and frequently there is room available to put them by themselves which is not so in the case of the wards attached to the dispensaries of which they may be the only occupants.

5 I shall be glad if Government will be pleased to lay down some

some definite ruling on the points above referred to.

6. I would propose for the consideration of Government that in places where no chuttrams public or private are available separate wards or poor houses should be established for the reception of sick strangers or the moribund poor with separate endowments or allotments for their maintenance under such management as Government may determine and let the persons above referred to use them and be treated at the dispensaries as out-patients.

7. What has led me to make a representation to Government on this subject is the receipt for countersignature of a bill from the Honalli dispensary for Rs 8/8 for dieting three paupers from the 5th, 8th, and 15th of June respectively up to the end of that month and the same sort of thing in varying degrees has come to notice in the case of other dispensaries.

I have the honor to be,
Sir
Your most obedt Servt

GOVERNMENT OF MYSORE

Office of the President
of the District Fund Board –
Tumkur 19th August 1893.

To,

The Chief Secretary to the
Government of Mysore

Sir,

With reference to Government order No: 2024 – 32 L. F. 13-93 of the 3rd instant forwarding for remarks and suggestions Copy of the Senior Surgeon's letter No: 122 of the 10th July 1893 stating that it is advisable to find separate accommo=dation for the very poor and habitually unclean patients in Musafirkhanas / Chattrams &c= for fear that the Hospital wards might be branded as poor houses and might in conse=quence become less popular among the respectable classes, I have the honor to state that so far as this District is concerned exceptionable instances of the kind referred to have not

not as yet occurred. However if, on any occasion any Medical Officer in charge of an Hospital or Dispensary wishes the removal from the hospital wards of any patient on any reasonable ground every endeavour will be made to find accommodation for such person elsewhere.

I have the honor to be,

Sir,

Your most obedient Servant

Deputy Commissioner's Office
Chitaldroog District
Dated Chitaldroog 24th August 1893.

To

The Chief Secretary to the
Government of Mysore
Bangalore.

Sir, with reference to your Office No. 2024-32 / L.F.13-93 dated the 3d August 1893. forwarding for remarks Copy of a letter from the Senior Surgeon suggesting the exclusion of paupers and sick wanderers from the in-patient wards attached to our Local Fund Dispensaries, I have the honour to state that there is considerable force in the observations made by the Senior Surgeon and that it is desirable that the wards in question should be put to better use than the housing and dieting of sick strangers and moribund poor.

2. The Senior Surgeon seems to think that the people whose reception into the Dispensary wards he has seen properly taken exception to, may be admitted into Chattrams, public or private, wherever available and

fed

fed and looked after therein. In this, I cannot concur. Chattrams are intended only for Brahmins and Sádhus. No other Classes of people can be accommodated or fed therein. The admission of paupers and sick wanderers into them, would virtually mean the exclusion therefrom of the only Class of persons for whom they were intended.

3. The remedy seems to lie in the accommodation and dieting of the people in question in a portion of the public Musafirkhanas, wherever they exist. Such buildings, are I believe in existence in almost every Yalook Head quarter station, at which there is a Dispensary. The portion to be thus utilized, will have to be partitioned off from the rest of the building. A small grant may be made to each Yalook for the purpose of dispensing the cost of feeding. Raw rations may be issued to such of these people as may be capable of cooking their own food. Food will have to be cooked and given to others. This does not necessitate the entertainment of a permanent Cook. Whenever such cases may arise, and I think they will be few and far between, the Yalook —

Authorities

Authorities can easily make some temporary arrangements for having the food cooked.

4. Should such people present themselves before the Amildar, or Shirastadar, that Officer will satisfy himself that Government help is really needed and then order the issue of food to them. In other cases he will act upon the information given him by the caretaker in charge of the Annapurkhana. The Hospital Assistant will of course treat such people either in the dispensary, or at the Annapurkhana, according as they may be capable or incapable of moving about.

5. Some such provision as that I have mentioned above seems absolutely necessary. At present, people of this Class are not freely admitted into our dispensaries. Nor do they easily find food and shelter elsewhere. Their case is a deplorable one, and deserves some consideration.

I have the honour to be
Sir,
Your most obedient Servant.

No. 1218
303

Dated 29th September 1893.
2-10-93

To

The Chief Secretary to the
Dewan of Mysore.

Sir,

With reference to Government Proceedings No. 2024-32 / L-713-93 dated the 3rd August 1893 communicating for remarks and suggestions the Senior Surgeon's letter suggesting that paupers and sick Strangers should not be encouraged to occupy the Hospital Wards attached to Local Fund dispensaries, I have the honor to state that I quite concur in the Senior Surgeon's opinion that in places where no chattrams public or private are available, separate wards or poor houses should be established for the reception of sick strangers or the moribund poor but the actual construction of such houses may I think be held in abeyance till there is sufficient proof of the Hospital Wards being freely and commonly resorted to by the respectable inhabitants for

treatment as in-patients.

In the meantime, the local medical Officers may arrange through the Municipal Presidents or Vice Presidents (as the case may be) for any paupers and wanderers who cannot without serious inconvenience to the respectable resident in-patients be admitted into the Hospital Wards being accommo-dated and treated at some public mantapam, chattram or other similar building which is generally available at the Head Quarters of each Taluk or Sub-Taluk.

As within my experience of the district instances in which respectable inhabitants seeking to be treated as in-patients at the Hospital wards cannot afford to diet themselves are rare, I would recommend that the present annual allot-ment of Rupees 25 given to each Dispensary for dieting charges be also utilized for the maintenance of the patients treated outside the Hospital premises and that an additional allotment of Rupees 25 for each institution be placed at the disposal of the President of the Local Fund Board to enable him to meet any extra or unforeseen

expenditure needed under the altered state of things.

It is a question whether the sick strangers and paupers though accommodated in separate wards may not also in a sense be regarded as in-patients as they would, especially if they are too weak to attend the Dispensaries require the same amount of attention and supervision as the patients at the Hospital wards.

I have the honor to be,

Sir,

Your most Obedient Servant,

Deputy Commissioner

With reference to Govt Pro. No. 2024-32 / L7 13-93 of the 3d August last forward Co/y of a Memo embodying the joint opinion of Messrs Chalavenpa and Achutha Row -

Subject:

Paupers and Sick Strangers should not be encouraged to occupy the Hospital Wards attached to Local fund Dispensaries.

Registered 23/11/93

Section Medl
File No 8-23 W
Serial No. 7
Accepted

Memorandum

The Local Fund Dispensaries of this district excepting in a case or two have no accommodation at all for more than two or three patients.

There is no Cook attached for the purpose of preparing food to any patients that may be admitted in doors. The admission of old and decript or starving paupers who are usually brought by the Police from road sides would only add to the difficulties already existing on the score of accommodation and food Service.

There are Musaferkhanas in almost all the Taluk Head Quarters and in some there is a government Chattram in addition. Cooks and Panichaikas are attached to these Chattrams.

We therefore suggest that paupers of the kind noted in Senior Surgeon's No 122 dated 10th July 1893 may be located in Musaferkhanas or Chattrams and the

Amildar of the Taluk be instructed to have their food served to them by the Chattram paricharika. — The Cost of the food may be met from Local Funds, and the Hospital Assistant be directed to attend on the ailing paupers and see that medicines are properly given and their Comforts are attended to.

Even should there be no Cook or paricharika in any station, an Amildar of a Taluk if so instructed would be able to get food served to these paupers so long as the Cost of the food is debitable to some particular funds.

The above arrangement will provide for the Care of the paupers without throwing any burden on the local Fiers to meet the Cost of their maintenance we therefore recommend its adoption

The Chief Secretary to the Dewan
of Mysore.

Sir,

I have the honor to acknowledge the receipt of the Government Proceedings No. 2024-32 L.F. 13-93 dated 3rd August last, communicating for remarks and suggestions the letter of the Senior Surgeon, suggesting that paupers and sick strangers should not be encouraged to occupy the Hospital Wards attached to Local Fund Dispensaries, and in reply to submit an Extract from the Proceedings of the meeting of the Local Fund Board held on the

the 6th Ultmo, relating to the subject.

2. The Board is of opinion that as the establishment of separate wards or poor houses is inconvenient and costly, paupers and sick strangers whose ailment is incurable or would take a long time to cure, may be sent to Bangalore where the Municipality maintains an Hospital and an Incurable ward.

3. The above resolution has been come to at my suggestion. Chattrams are intended for travellers and cannot be converted into Asylums for incurable paupers. The cost of constructing and maintaining separate wards wherever there is a Dispensary is prohibitive. But Dr McCann's objection to our Dispensaries receiving incurable paupers, I fully endorse

and I think 37 the only way of
meeting the difficulty is what
is suggested above.

I have the honor to be
Sir,
Your Most Obedient Servant.

Sir,

With reference to your No. 81 dated 28th August last forwarding Government Proceedings No. 2024-32 L.F. 13-93 communicating to the Presidents of the Local Fund Boards further remarks and suggestions the letter of the Senior Surgeon suggesting that paupers and sick strangers should not be encouraged to occupy the Hospital wards attached to Local Fund dispensaries, I have the honour to remark and suggest as follows:—

Reading the letter of the Senior

Senior Surgeon No 122 dated 10.7.93,
I am led to understand that the
Wards attached to the Local Fund
Dispensaries were primarily
and mainly intended for the
benefit of the respectable in-
habitants. The Senior Surgeon,
in para 3 of the above letter,
however, does not omit to note
that it would be a hardship
on the sick and destitute strangers
and wanderers if they are completely
shut out from them, and suggests
that the latter may be located
in chatrams or other charitable
institutions, where such exist
and separate arrangements
may be made for their dieting
while medicine may be dealt
to them gratis in the dispensary
as in the case of other out-patients.
So far as I am aware, I have
not come across a single instance,
at least in this Sub division in
which the respectable and fairly
well to do inhabitants of the place
have taken advantage of these
wards

wards. They may be doing so following the example of others of their class where such wards are attached to Hospitals in cities and large towns. They have, in my opinion, more or less religious prejudices for availing of the diet in these wards at the hands of the Dispensary Servants who are not of the caste which is welcome to all. Besides a general sentiment of being looked upon as paupers or the like, prevails amongst the better classes for being dieted and treated in these wards. The respectable classes therefore, as a rule, are content with obtaining medicine, making their own arrangements for dieting, even if they are obliged to remain in the Dispensary wards on account of their securing close and constant medical attendance on the part of the Hospital Assistants

If the sick alluded to in para 3 of the letter above quoted are located in the Chatrams or other charitable

charitable institutions where such exist, I am afraid they will soon become the rendezvous of the moribund poor whom it would be difficult to send away, and the institutions would be soon shunned by other travellers for whose benefit they have been established and create a general dissatisfaction. I would not, therefore, advocate the proposal of dieting such sick poor persons in the chatrams and providing medicine for them from the Dispensaries.

The proposal of establishing separate poor houses as suggested in para 6 of the above letter is good, but such a general scheme will have to be well considered and matured before bringing it in force.

I would say that instead of having such poor houses in every place, where no chatrams &c. exist, and in every

every place where there is a Local Fund Dispensary, Separate wards to answer the purpose may be constructed, attached to the Dispensary and maintained only at the Taluk Khasbas with the view of restricting the painful perapatin of the sickly paupers and wanderers, if the Government be pleased to bestow funds for their ~~ma~~ maintenance and up Keep.

In the present, I beg to suggest that where space for wards now exists in the L. F. dispensaries this may be portioned of and one portion may be set apart for the Local respectable classes and one for the poor sick, the Hospital Assistants, in charge, using their best discretion as regards the No and time in admitting the latter.

To

The Chief Secretary to the
Government of Mysore
Bangalore.

Sir,

With reference to Government Proceedings No. 2024-32 / L. F. 13-93 dated 30th August last, Communicating Senior Surgeon's letter for remarks and suggestions of the District Fund Board on the subject of discouraging paupers and sick strangers from occupying Wards attached to Local Fund Dispensaries, I have the honor to enclose herein for information of Government extract of Resolution No. III of the Proceedings of the Meeting

meeting Convened on the 3d. October last. It may be observed that the Board's opinion is that provision for accommodating these men in the Hospitals should be made out of Provincial Funds though not for feeding them, as the District Fund assets cannot bear any more additional charges than what is already being borne.—

I have the honor to be
Sir,
your most obedient servant;

Deputy Commissioner
Hazara District

TO BE ENCLOSED

Extract of the Resolution no: III of the Proceedings of the meeting convened on the 3rd October last.-

× × × × × ×

Resolution.

After further consideration, it was resolved that it is not possible to allot funds for their being fed but a chattram or Annasafrkhana should be provided in each Dispensary town where such people might remain, and so that, finding their own food, these may get such medecines from Dispensaries ten as their Constitutional ailment may require.

Order thereon

In his letter dated 10th July 1893 c/o 122, the Senior Surgeon brought to the notice of Government that the Hospital

Hospital wards attached to
Local Fund Dispensaries were
being occupied by paupers
and sick strangers and that
if this were to continue,
the respectable inhabitants
of the several Districts, for
whose benefit they were
permanently and mainly intended
would not resort to them.
The letter was communicated
to the Presidents of the
Several Local Fund Boards
for their remarks and
suggestions and the letters
and dockets recorded above
are in reply:—

2. Most of the Dy
Comrs consider that sick
paupers might be accommodated
in

in Musafankhanas or Chattrams, which are to be found almost at the Head Quarter of each Taluk and some consider that separate wards should be built for the poor.

3. Government observe that the Local Fund Dispensaries are intended only for out-door patients and wards have been attached to them recently for the accommodation of patients in emergent cases requiring immediate and constant observation. Government cannot at present undertake

undertake the construction of separate wards for the sick poor. nor are they disposed to rule that paupers should never be admitted into the wards attached to the Local Fund Dispensaries. The Presidents of the District Fund Boards will be requested to obviate the evil complained of by the Senior Surgeon by accommodating the sick poor in Musafarkhanas or Chattrams whenever possible, so that the wards may be available for

for the middle classes

in emergent ~~cases~~ cases.
